Indirect Loss of Property by War. War Dr. Wisner. not only demands for its support vast sums of money, but dries up the main sources of a mation's wealth. Its victims are mostly men in the business. It cuts the sinews of enterprise in every department of gainful industry. Fields lie untilled; factories stand still; the shop and counting-room are deserted; vessels not at the wharves; every kind of trade is interrupted or deranged; immense masses of capital are withdrawn from use; the entire energies of a nation are turned into the channel of war, and its resources whelmed in this mighty vertex of ruin.

SONG. BY W. C. BBYANT.

O stream, for ever fresh and full, That gleamest through the plain! For thee the punctual spring returns, To steep thy banks with rain: And when thy latest blossoms die In autumn's chilly showers, The winter fountains gush for thee, Till May brings back the flowers.

O stream of Life! the violet opings But once beside thy bed; But one brief summer on thy path The dews of heaven are shed. Thy parent fountains shrink away, And close their crystal veins, · And where the glittering waters ran, The dust alone remains.

My unwavering confidence in the author of this commission; the rightfulness and validity of the high claim here set up by him, as possessing all power in heaven and earth; the public allegistice I have sworn to him as the King in Zion-my rightful sovereign; together with my strong desire to show my faith by my works, as an obedient subject of his Kingdom, are all the prodonials I shall offer-all the analogy I shall make for my feeble attempt on this occasion to bear some numble part in the execution of this commission.

The true import and object of this commit non was doubtless well understood by those to whom it was originally given to be, not a delegation of Godlike power to a few ecclesiastics, and their accessors, for the purpose of enslaving all who might be made its victima but a dispensation of divine benevolence, and good will to all menon everture of purdon to a race of rebels, who and long usurped the divine prorogative bythe assumption of bresponsible power over their fellows-a plan designed to bring them back to their afleglance to the blessed and only Potentale-the Lord of Lords, and would make that little leisure longer.
